

UNIVERSAL LED FOG LIGHTS

SKU: B6FOG/PR

UNIVERSAL HOUSING SOLUTION.

OEM-like simple LED upgrade, the BASE6 Fog Light kit is designed for the most universal fitment on the market. These have mounting brackets to suit a wide range of factory fog lamp housing.

COMPLIANCE.

The projector lens optic distributes a very flat and extremely wide pattern which is DOT and SAE standard compliant for road use.

PART NUMBERS.

B6FOG/PR Pair

BEAM SPREAD.

ITS IN THE DETAILS.

With a life of 50,000 Hours, Never Replace a light Bulb... Again! Enjoy the experience of an improved fog light pattern with a clearer beam cutoff and brighter output. Replace those dim factory incandescent fog lamps with a SuiTech LED upgrade.

The BASE6 LED Fog lights retrofits into OEM and aftermarket bumpers. It utilizes unique anti-flicker technology to eliminates the flickering commonly associated with pulse width modulation (PWM) signals. Our lamps meets DOT and SAE motor vehicle safety standards. The solid state electronics and powerful LEDs are protected by water tight seals. These drop-in replacements are truly plug-n-play requiring no modifications and installation takes only 20-30 minutes
