

2" MARINE MICRO M2 SERIES WORK LIGHT

MICRO SIZE. MASSIVE LIGHT.

BASE6's MICRO MR2 work lamp combines superior performance in a durable, maintenance free package. These energy efficient lights suit the most demanding environments and are perfect for applications where space is limited.

Easy to install, the MICRO MR2 Series are equipped with thermal management technology – smart adjusting to the environmental temperature to balance optimal performance and overheating prevention.

USE ANYWHERE.

Our Micro M2 Series work lights suit the most demanding environments. Offering uncompromised performance and energy efficiency, whilst being compact and easy to install, the M2 Series are perfect for applications where space is limited.

Complete with a lightweight die-cast housing and polycarbonate lens and two wire installation, the M2 provides a high quality, low fuss solution to your lighting requirements.

ITS IN THE DETAILS.

The M2 work light features an oversized heat sink for its size, ensuring maximum brightness and longevity. The micro form factor allows it to take on high-power input handling with ease while still having a compact design that will fit into any space!

The M2 series LED Work Light is the toughest, most durable work light you'll ever need. Built with an indestructible GE Lexan lens and IP69K waterproof rating for protection against all sorts of abuse on site – even reverse voltage or thermal overloads!
